Principal**3.2.1: Institution has created an ecosystem for innovations and has initiatives for creation and transfer of knowledge:**

Our College is quite responsive as far as the requirements of its stakeholders are concerned. The College tried its best to create ecosystem for innovations and taken proper initiatives for creation and transfer of knowledge. The following are the some of the significant ideas and activities initiated by the college for the creation and transfer of Knowledge:

- **Incubation Center:** We strongly believe that an incubation center is strongly needed in today's postmodern world which has been changing constantly. Having pointed out this crucial need, our College has started an incubation center in order to guide, support and encourage our students for start-ups and many other innovative ideas. We could support and co-operate many students to have different ventures like Pathological Laboratories, Hotels, Furniture Business, General Stores, Bricks Manufacturing Units, etc. The Incubation Center consists of three faculty members out of whom one is Chairman and other two are the members:

Sr. No	Name of the Faculty	Designation
1	Prof. Dr.Solankar R. R.	Chairman
2	Dr.Dulange S, M.	Member
3	Dr.Mothe P. S.	Member

The said committee / incubation center has performed different activities and assisted the students. It includes:

- We prepare our students for the University Youth Festivals and Avishkars.
- We organise the seminar on Intellectual Property Rights and create awareness about the patent filing among the UG, PG students and faculty members.
- We conduct the vocational guidance programmes for the students.
