Our College has been running two crucial online courses of Infosys and Career Katta being sponsored by the State Government (Director, Higher Education and Technical Education) and Infosys Ltd. ## **Introduction:**

SWAYAM is a programme initiated by Government of India and designed to achieve the three cardinal principles of Education Policy viz., access, equity and quality. The objective of this effort is to take the best teaching learning resources to all, including the most disadvantaged. SWAYAM seeks to bridge the digital divide for students who have hitherto remained untouched by the digital revolution and have not been able to join the mainstream of the knowledge economy.

SWAYAM conducts on-line certification courses on a variety of subjects for which exams are held every semester in the Computer Based Mode or in hybrid mode, i.e. CBT mode and paper pen mode.

This is done through a platform that facilitates hosting of all the courses, taught in classrooms from Class 9 till post-graduation to be accessed by anyone, anywhere at any time. All the courses are interactive, prepared by the best teachers in the country and are available, free of cost to any learner. More than 1,000 specially chosen faculty and teachers from across the country have participated in preparing these courses.

The courses hosted on SWAYAM are in 4 quadrants – (1) video lecture, (2) specially prepared reading material that can be downloaded/printed (3) self-assessment tests through tests and quizzes and (4) an online discussion forum for clearing the doubts. Steps have been taken to enrich the learning experience by using audio-video and multi-media and state of the art pedagogy / technology.

In order to ensure that best quality content is produced and delivered, nine National Coordinators have been appointed. They are:

1. AICTE (All India Council for Technical Education) for self-paced and international courses
2. NPTEL (National Programme on Technology Enhanced Learning) for Engineering
3. UGC (University Grants Commission) for non technical post-graduation education
4. CEC (Consortium for Educational Communication) for under-graduate education
5. NCERT (National Council of Educational Research and Training) for school education
6. NIOS (National Institute of Open Schooling) for school education
7. IGNOU (Indira Gandhi National Open University) for out-of-school students
8. IIMB (Indian Institute of Management, Bangalore) for management studies
9. NITTTR (National Institute of Technical Teachers Training and Research) for Teacher Training programme

Courses delivered through SWAYAM are available free of cost to the learners, however learners wanting a SWAYAM certificate should register for the final proctored exams that come at a fee and attend in-person at designated centres on specified dates. Eligibility for the certificate will be announced on the course page and learners will get certificates only if this criteria is matched. Universities/colleges approving credit transfer for these courses can use the marks/certificate obtained in these courses for the same.

## **Online Refresher Course In Chemistry For Higher Education**

This online course has been designed and developed by **National Resource Centre of MHRD** at Guru Angad Dev Teaching Learning Centre, a centre under PMMMNMTT scheme of MHRD, Govt. of India at SGTB Khalsa College, University of Delhi **with the help of expertise from all over the country**. The NRC of Chemistry is guided by Academic Council consisting of eminent Chemist from the leading institutes of the country.

This is a Refresher Course for Chemistry Teachers teaching in Higher Education Institutions at Under-Graduate and post-Graduate level. As per MHRD & UGC, this will be treated equivalent to face-to-face Refresher Course in Chemistry as required under Career Advancement Scheme (CAS) of UGC.

This course has been designed to provide insight into a variety of interesting and meaningful chemistry topics as modules of different types, so that it is useful for all the chemistry teachers irrespective of their specializations.

The different type of modules covered in this course have been categorized based on the type their content like **ChemNews** module which will bring the latest news from the world of chemistry. **ChemTalks** focus on the Latest Developments as well as new and emerging areas of Chemistry. The **ChemSafeLabs** modules will emphasize various measures to prevent accidents in chemistry labs. **ChemNobel Laureate** will take you down the memory lane to discuss the life and contributions of Ernest Rutherford. **Chem Pedagogy** modules will highlight on improving curriculum development and question paper setting. **Chem Simplified** aims to simplify some difficult concepts of chemistry. **Chem ICTTools** focus on ICT tools which can be embraced by chemistry teachers. To commemorate 150th anniversary of periodic table in 2019, one module is entitled **ChemHistory**. In **ChemError** module, emphasis will be on the correct usage of SI units and their recently modified definitions. **ChemIndustry** modules will focus on the Pharmaceutical industry and career options for chemistry students. **ChemMisconceptions** will try to clarify some chemistry misconceptions. **ChemApplications** modules will provide some real life examples to make chemistry teaching interesting in the classrooms. **ChemQuest** will make you learn chemistry through question and answers in an exciting manner.

The course has highly multimedia enriched videos along with text, reading material, references and online Quizzes.

Target Audience:

- Chemistry Teachers teaching in Higher Education Institutions at Under-Graduate and post-Graduate level. **(Equivalent to Refresher Course as well as for self-learning)**
- Chemistry School Teachers **(For self-learning)**
- UG & PG Chemistry Students **(For self-learning)**
