Introduction:

The present academic venture, national web conference on “Research Methodology for Ph.D. Students in Humanities ” was the deliberate attempt made by the IQAC & Incubation Center of S. S. P. M’s Adarsh Mahavidyalaya, Omerga, Dist. Osmanabad, Maharashtra to anticipate and unveil the curtains of research.

Research is a scientific investigation. Investigation means a search for new facts and ideas in any branch of knowledge. Thus, we can say that research is a search for knowledge. Research may be considered as a movement, a movement from the unknown to the known. It is actually a voyage of discovery.

Research is carried out for two purposes; one is the discovery of new facts and the second, verification of the old ones. The object of every business organization, of course, is the discovery of new facts, new relationship, and new laws governing the business phenomena. But constant verification of the old concepts is also needed especially in dynamic business environment.

Common sense knowledge, based on the accumulated experiences, prejudices and beliefs of the people is often contradictory and inconsistent. On the other hand, scientific observations are based on verifiable evidence or systematic body of proof that can be cited. For example, some common sense statements are: man is more intelligent than woman; married men remain happier than single people; rural people are more hardworking than urban people etc. Contrary to this, the scientific research or scientific inquiry finds that woman is as intelligent as man; there is no association in happiness and marriage; hard work is not related to environment alone. Thus, a statement based on common sense is just a guess or prejudice or mistaken interpretation, though at times it may be true, wise and a useful bit of knowledge. But it is not based on any scientific evidence. A scientific statement is based on accumulated systematic knowledge through research.

Therefore, by taking into account this crucial need and thrust of exploring the scenario of research design, the initiative has been taken by the IQAC & Incubation Center of Adarsh mahavidyalaya, Omerga, Dist. Osmanabad to organize the international Web-Conference on such requisite topic entitled, “Research Methodology for Ph.D. Students in Humanities ”.

Objectives:

There are some important objectives of this webinar which are given in nutshell as follow:

- To improve the quality and level of living in the society.
- To find out the hidden facts about a business phenomenon.
- To innovate new ideas- Research invokes the innovation of new concepts, theories and idea in a business study.
- To improve the quality: The whole exercise of any activity is done for the improvement of quality of a product, machinery, or life of human beings. This can be achieved by a systematic and critical investigation i.e. research.
- To add new knowledge to the existing store.

Summary of the Web-Conference:

A web-Conference on “**Research Methodology for Ph.D. Students in Humanities**” was conducted at Adarsh Mahavidyalaya, Omerga, Dist. Osmanabad, MS on 20/02/2023 at 12:30 pm. The web- conference was organized by Internal Quality Assurance Cell & Department of English, Adarsh Mahavidyalaya, Omerga, Dist. Osmanabad, MS.

The web-Conference was delivered through the Zoom Meeting Application and more than 500 participants from Indian and abroad participated in the web-conference through online mode.

Hon. Principal Dr.D.P.Garud Sir has welcomed and delivered his introductory address. In addition to this last year we have successfully organized UGC sponsored five seminars and conferences of Physics, Chemistry, Botany, English and Political science. We also have been awarded by the State Government of Maharashtra’s Jagar Janiwancha District Level IInd Award. We have been trying our level best to be the part of Global Education. Hence, recently we have started the PG Courses like M.Sc. (Comp. Sci), M.sc.(Micro-Bio) whereas we already have M.Sc. (Botany), M.Sc. (Mathematics), M.Sc. (Zoology) and M.A. (His). Apart from it, to motivate the students and make them familiar with the real plight of higher education and its importance we conduct various competitions in our college, such as speech competition, debate, poetry reading, tests on current knowledge, etc. and make the students involve in it.

Recently, we have been granted some schemes by UGC. I am quite sure that these schemes will play a vital role in building up the students’ career and boosting up their confidence. It includes the schemes like College with Relatively Higher Proportion of SC/ST and Minorities, Establishment of Day Care Center, Establishment of UGC Network Resource Center, Equal Opportunities Center, Remedial Coaching for SC/ST/OBC (Excluding Creamy Layer) and Minorities, Coaching Classes for Entry in Services for SC/ST/OBC (Excluding Creamy Layer) and Minorities and Career and Counseling Cell.

The head department of English **Prof Ram Solankar** has introduced the motto and objectives of the said Web- conference and welcomed all the dignitaries and participants participated in the Web-Conference.

After his welcome talk, **Dr. Vardharajan** Sir delivered his address and it was truly thundering and alarming talk given by sir. He said, According to Dawson (2019), a research methodology is the primary principle that will guide your research. It becomes the general approach in conducting research on your topic and determines what research method you will use. A research methodology is different from a research method because research methods are the tools you use to gather your data (Dawson, 2019). You must consider several issues when it comes to selecting the most appropriate methodology for your topic. Issues might include research limitations and ethical dilemmas that might impact the quality of your research. Descri

The web-conference has ended up at around 1.45 pm with the vote of thanks expressed by **Dr. Sanjay Dulange**.

The anchoring has been done by **Dr. Prashant Mothe**.

Outcome of the Webinar:

The Web-conference was highly successful and the figure of participants which is more than 365 speaks everything. It was truly very much informative and comprehensive. All the participants have been greatly benefited by it. They could understand and anticipate Research Design, What are research methodologies? The research methodology, therefore, has to do with how a researcher designs their study in a way that allows them to obtain valid and reliable results and meet their research objectives and many thoughts expressed by the resource person in the said Web-Conference. Overall speaking, it was very much successful academic event.

- Entries are double-spaced
- The first line of each entry begins at the margin. Subsequent lines display a 1/2" hanging indent.
- Entries are alphabetized by the first word in each entry (typically the author's last name)
- The words "References" and "Works Cited" are both centered, at the top of the page, and in plain text.
- The important words in all journal titles and book titles are capitalized.
- MLA uses the heading "Works Cited" while APA refers to the page as "References."
- In MLA entries the title follows the author's name, but in APA, the year (in parentheses) follows the author's name.
- Essay titles in MLA are put in quotation marks and all important words are capitalized. APA capitalizes only the first word of an essay's title and does not put punctuation marks around the title.

Passage with in-text Citation

6

The Late Modern Literature (1970-1990) had many socialists writing on reforms, it was when China finally opened its door to Western world. There were translations of modern literature with 20th century techniques as Imagism, Absurdism, and Surrealism. The fourth phase of Post-Modern Literature came with expected globalization, the necessity to connect to the world along with to match with the fast changing world of literature. Here, the writers got freedom to invest in western trends and involve it in their native tradition; one of its branches is Root-Seeking Literature (Dong Gu 09).

After the westernization of China, the literary culture saw wide change in its genres. The slow advent of literary styles and imitation of genres made the original
